Little money for Ferguson, scene of rare U.S. suburban riots

By Edward McAllister and David Greising

(Reuters) - Sonya Roberts' liquor store in Ferguson, Missouri was vandalized during rioting in August and November, and with no government aid available, she is relying on Internet crowd-funding and a credit union loan to keep afloat.

"I don't know if I am going to survive past the end of the month," said Roberts, 46, whose insurance does not cover the $37,000 worth of damage to her store on West Florissant Avenue. The roadway was the main thoroughfare for looting and arson after a grand jury last week decided not to charge a white police officer in the shooting of a black teenager.

In Ferguson, more than 50 businesses were damaged, 19 severely, according to city records. Where business once thrived, police tape flaps in the wind. Dozens of storefronts are boarded up, while others lie gutted by fire. Many residents said they were staying away from the badly hit areas.

INSURANCE CLAIMS

The federal government has programs to ease financial distress in cities with more than 50,000 people, ranging from stabilizing economically stricken neighborhoods to disaster recovery assistance. But as a city of 21,000 people, Ferguson is too small to qualify.

The state has not helped much so far.

Nixon canceled a plan to call a special legislative session on compensating Ferguson for the cost of policing the riots after Republican legislators argued there was no need to spend on security beyond the amount in the existing state budget.

Disaster aid from the Federal Emergency Management Agency will not be forthcoming, the state was told in August, because such emergency aid does not cover acts of civil unrest, Nixon's spokesman, Scott Holste said.

The rioting in Ferguson, just north of St. Louis, caps a period of financial decline, made even worse by natural disasters. Tornadoes hit the small city of roughly 9,000 homes in 2011 and 2013. Its most recent budget, published in June, describes its recovery from the recession as "glacial".

This document summarizes the recommendations of the West Florissant Great Streets demonstration project sponsored by East-West Gateway Council of Governments, the Cities of Dellwood and Ferguson, and St. Louis County. The planning process commenced in November 2013 and concluded June 30, 2014.

DELLWOOD TOWN CENTER, CORRIDOR SEGMENT 3

The intersection of West Florissant Avenue at Chambers Road, in Dellwood, is an important central site that has regional access and convenient connections to downtown Ferguson. Dellwood City Hall, Dellwood Park and the Recreation Center are major civic assets in this area, and Dellwood Crossing is one of the most successful retail centers along the corridor. However, older retail is struggling and Springwood Plaza has been vacant and unproductive for several years.

About the Project

The Cities of Dellwood and Fergusos joined with East-West Gateway Council of Governments and St. Louis County to re-imagine West Florissant Avenue to:

- help improve economic conditions
- create an attractive and pleasing sense of place
- help vehicles, bicyclists and people move safely through the corridor

The project considered a wide range of improvements to West Florissant Avenue between the Buzz Westfall Plaza Shopping Center to the south and Interstate 270 to the north. The plan and its Executive Summary can be downloaded from the links to the right.

I am no expert on blast effects to residential structures, but the scene looks like decompression damage and not typical blast wave damage. It is definitely easier to destroy a house than a building. There is a possibility that this was a secondary explosion.

Possibly stepped down to do the housework. It appears to be gone, and there appears to be a depression. These homes have window wells which means they have wall foundations with windows and doors. A structure without at all would indicate a high-explosive site.

The HSEEP Training Course

The HSEEP Training Course incorporates exercise guidance and best practices from the HSEEP Volumes. Throughout the course, participants will learn about exercise-related topics including program management, design and development, conduct, evaluation, and improvement planning.

The HSEEP Training Course is an interactive course that allows participants to share personal lessons.

The course has been developed by the U.S. Department of Homeland Security (DHS) using input from Federal partners, subject matter experts (SMEs), and State and local representatives. HSEEP is a capabilities-based exercise program that includes a cycle, mix, and range of exercise activities of varying degrees of complexity and interaction. The purpose of HSEEP is to build self-sustaining exercise programs and provide a standardized methodology for designing, developing, conducting, and evaluating all exercises.

Participant Preparation

Participants need a basic knowledge of exercise design and HSEEP terminology. Therefore, participants are required to complete Independent Study (IS-120.A, An Introduction to Exercises), before attending the HSEEP Training Course. The IS course takes approximately 3 to 5 hours to complete. To complete this requirement, follow these steps:

- Go to training.fema.gov/EMAWebIS/IS120A.asp and select “Interactive Web-based Course”.
- After completing the modules, select “Take Final Exam”.
- Obtain proof of completion of the course.

Additionally, the HSEEP Training Course will briefly cover other DHS initiatives. As such, it is recommended that participants complete the following IS courses:

- IS-130: Exercise Evaluation and Improvement Planning
- IS-138: Exercise Design
- IS-700: HMIS, An Introduction
- IS-800B, National Response Framework: An Introduction

The course will be held at the Sandy Hook Fire Department, address below.

Location: 18 Riverside Road, Sandy Hook CT
This event is 37 miles from you (06105).

According to Hagberg, the sprayings, a joint endeavor by the U.S. Central Intelligence Agency (CIA) and the U.S. National Security Agency (NSA), are actually a toxic mix of chemicals, viruses, and metals that she has collectively referred to as "chemtrails."
